Please note that, in addition to the regulations of the GDPR, the national data protection regulations may apply in your country or in our country of residence or domicile. If, in addition, more specific legal bases are applicable in individual cases, we will inform you of these in the data protection declaration.

- **Performance of a contract and prior requests (Article 6 (1) (b) GDPR)** - Performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract.

- **Compliance with a legal obligation (Article 6 (1) (c) GDPR)** - Processing is necessary for compliance with a legal obligation to which the controller is subject.

- **Legitimate Interests (Article 6 (1) (f) GDPR)** - Processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the interests or
fundamental rights and freedoms of the data subject which require protection of personal data.

**National data protection regulations in Switzerland:** In addition to the data protection regulations of the Basic Data Protection Ordinance, national regulations apply to data protection in Switzerland. This includes in particular the Federal Data Protection Act (DSG). The DSG applies in particular if no EU/EEC citizens are affected and, for example, only data of Swiss citizens are processed.

**Security Precautions**

We take appropriate technical and organisational measures in accordance with the legal requirements, taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of processing as well as the risk of varying likelihood and severity for the rights and freedoms of natural persons, in order to ensure a level of security appropriate to the risk.

The measures include, in particular, safeguarding the confidentiality, integrity and availability of data by controlling physical and electronic access to the data as well as access to, input, transmission, securing and separation of the data. In addition, we have established procedures to ensure that data subjects' rights are respected, that data is erased, and that we are prepared to respond to data threats rapidly. Furthermore, we take the protection of personal data into account as early as the development or selection of hardware, software and service providers, in accordance with the principle of privacy by design and privacy by default.

**SSL encryption (https):** In order to protect your data transmitted via our online services in the best possible way, we use SSL encryption. You can recognize such encrypted connections by the prefix https:// in the address bar of your browser.
Transmission and Disclosure of Personal Data

In the context of our processing of personal data, it may happen that the data is transferred to other places, companies or persons or that it is disclosed to them. Recipients of this data may include, for example, payment institutions within the context of payment transactions, service providers commissioned with IT tasks or providers of services and content that are embedded in a website. In such a case, the legal requirements will be respected and in particular corresponding contracts or agreements, which serve the protection of your data, will be concluded with the recipients of your data.

Data Processing in Third Countries

If we process data in a third country (i.e. outside the European Union (EU), the European Economic Area (EEA)) or the processing takes place in the context of the use of third party services or disclosure or transfer of data to other persons, bodies or companies, this will only take place in accordance with the legal requirements.

Subject to express consent or transfer required by contract or law, we process or have processed the data only in third countries with a recognised level of data protection, on the basis of special guarantees, such as a contractual obligation through so-called standard protection clauses of the EU Commission or if certifications or binding internal data protection regulations justify the processing (Article 44 to 49 GDPR, information page of the EU Commission: https://ec.europa.eu/info/law/law-topic/data-protection/international-dimension-data-protection_en).

Commercial Services

We process data of our contractual and business partners, e.g. customers and interested parties (collectively referred to as "contractual partners") within the context of contractual and comparable legal relationships as well as associated actions and communication with the contractual partners or pre-contractually, e.g. to answer inquiries.
We process this data in order to fulfil our contractual obligations, safeguard our rights and for the purposes of the administrative tasks associated with this data and the business-related organisation. We will only pass on the data of the contractual partners within the scope of the applicable law to third parties insofar as this is necessary for the aforementioned purposes or for the fulfilment of legal obligations or with the consent of data subjects concerned (e.g. telecommunications, transport and other auxiliary services as well as subcontractors, banks, tax and legal advisors, payment service providers or tax authorities). The contractual partners will be informed about further processing, e.g. for marketing purposes, as part of this privacy policy.

Which data are necessary for the aforementioned purposes, we inform the contracting partners before or in the context of the data collection, e.g. in online forms by special marking (e.g. colors), and/or symbols (e.g. asterisks or the like), or personally.

We delete the data after expiry of statutory warranty and comparable obligations, i.e. in principle after expiry of 4 years, unless the data is stored in a customer account or must be kept for legal reasons of archiving (e.g., as a rule 10 years for tax purposes). In the case of data disclosed to us by the contractual partner within the context of an assignment, we delete the data in accordance with the specifications of the assignment, in general after the end of the assignment.

If we use third-party providers or platforms to provide our services, the terms and conditions and privacy policies of the respective third-party providers or platforms shall apply in the relationship between the users and the providers.

For these purposes, we may use infrastructure and platform services, computing capacity, storage space and database services, as well as security and technical maintenance services.

The data processed within the framework of the provision of the hosting services may include all information relating to the users of our online services that is collected in the course of use and communication. This regularly includes the IP address, which is necessary to be able to deliver the contents of online services to browsers, and all entries made within our online services or from websites.

Erasure of data

The data processed by us will be erased in accordance with the statutory provisions as soon as their processing is revoked or other permissions no longer apply (e.g. if the purpose of processing this data no longer applies or they are not required for the purpose).

If the data is not deleted because they are required for other and legally permissible purposes, their processing is limited to these purposes. This means that the data will be restricted and not processed for other purposes. This applies, for example, to data that
must be stored for commercial or tax reasons or for which storage is necessary to assert, exercise or defend legal claims or to protect the rights of another natural or legal person.

Further information on the erasure of personal data can also be found in the individual data protection notices of this privacy policy.
